QUICK START GUIDE

The Easiest Way To Ensure Success Is To Follow This Simple 2 Step Process:

- Purchase both ad packages before you start referring. The way the system is set up, it rewards members by multiplying their earnings very quickly. Level 1 is Company Forced for every member to have the opportunity to level up. Members are placed on our Level 1 earnings board from left to right, top to bottom, filling the next space available.
- Level 2 is Team Forced to allow for leaders and other affiliates who refer to start their cycling faster. With Level 2 you get 4-Reentries back into Level 1. To speed the cycling process up, members should refer a minimum of 2 other affiliate marketers who will also refer 2.

Strategy For Success

Once you have acquired both of the ad packages, you need to make sure to post your banners and text ads of the products and services you want to invite other members to try. As well as utilize the downline builder for any other programs you want to showcase.

When it comes to referring others, this is where the line gets tricky for some members. The one thing you do not want to do is refer people who are not affiliate marketers or will not assist in building your team and network (ie family, friends, and tire kickers). Your first 2 referrals should be the strongest recruiters/sponsors you know. This will help with spillover for those who have a hard time referring.

THE DOUBLER 2x
